

SOFT MAGNETIC MATERIALS

CR/03

The automatic DC measuring system made for irregularly shaped samples in a fast and easy way. The CR-03 Coercimeter measures the coercivity for soft magnetic materials.

CR/03 COERCIMETER

DESCRIPTION

The Laboratorio Elettrofisico coercimeter facilitates measurement of samples that are not in the standard toroidal, strip or bar shapes. The CR/03 measures irregular shapes when closed-circuit measurements are not possible or convenient, which is the case in most applications.

No longer do you need to cut the material which alters the sample testing and often has a negative effect on the magnetic characteristics.

The working principle is based on the detection of the stray field coming from the sample under test. A Hall probe, positioned near the sample, measures the transverse component of this field. The stray field reduces as the axial field of the solenoids demagnetizes the sample. When the transverse field is zero, the axial field coincides with the coercivity of the material.

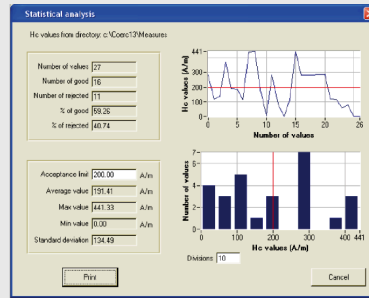

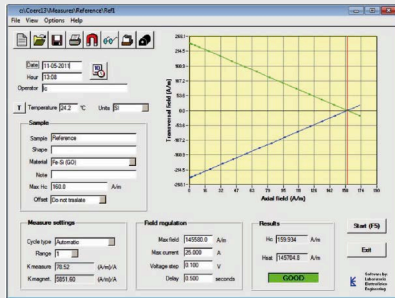

KEY BENEFITS

- Manual or automatic settings of parameters
- Magnetizing field up to 140 kA/m
- Coercivity Hc and Hsat
- Double-polarity measurements

STANDARD CONFIGURATION

- Cabinet with DC power supplies and gaussmeter
- Hall probe
- Solenoid with positioning tool for samples
- Mu-metal shield (optional)
- Dedicated software Krypton
- PC and printer
- Sample holder (accessory)
- Probe holder (accessory)

LE's proprietary coercivity software Krypton automatically controls the measurement process.

KEY BENEFITS

TYPE OF MEASUREMENT

- Coercivity Hc and Hsat
- Double-polarity measurements

SETTING OF MEASURING PARAMETERS

- Manual or automatic settings of parameters
- Magnetic units in SI and CGS

DATA ELABORATION

- Limit setting for good/rejected results
- Statistical evaluation of the results

PRINTING A REPORT

- Customized print options for information and language
- Direct print of a graphical report on printer or file
- The report can be opened and saved with other word processor programs

DATA BASE AND FILE SEARCHING

- Data base of measuring file with fast search capability, ordering and selection
- Full compatibility with other spread sheet programs, such as Microsoft Excel™

PROTECTION

- Password protection for restricting access according to selected parameters
